Contents Volume 203 (1998)

Labile pool of cadmium in sludge-treated soils
S.B. Pandeya, A.K. Singh and P. Jha **1–13**

Biomass production and nutrient dynamics in three clones of *Populus deltoides* planted on Indogangetic plains
B. Singh **15–26**

Distribution of phenolic compounds within seed and seedlings of two *Vicia faba* cvs differing in their seed tannin content, and study of their seed and root phenolic exudations
F. Bekkara, M. Jay, M.R. Viricel and S. Rome **27–36**

Flax (*Linum usitatissimum* L.) depends on arbuscular mycorrhizal fungi for growth and P uptake at intermediate but not high soil P levels in the field
I. Thingstrup, G. Rubæk, E. Sibbesen and I. Jakobsen **37–46**

The potential of *Thlaspi caerulescens* for phytoremediation of contaminated soils
B.H. Robinson, M. Leblanc, D. Petit, R.R. Brooks, J.H. Kirkman and P.E.H. Gregg **47–56**

Strategies to decrease nitrate leaching in the Brimstone Farm Experiment, Oxfordshire, UK, 1988–1993: the effects of winter cover crops and unfertilised grass leys
J.A. Catt, K.R. Howse, D.G. Christian, P.W. Lane, G.L. Harris and M.J. Goss **57–69**

A method for screening *Phaseolus vulgaris* L. germplasm for preferential nodulation with a selected *Rhizobium etli* strain
J.C. Rosas, J.A. Castro, E.A. Robleto and J. Handelsman **71–77**

Modelling and measuring the effect of nitrogen catch crops on the nitrogen supply for succeeding crops
K. Thorup-Kristensen and N.E. Nielsen **79–89**

A field study of nitrogen dynamics and spring barley growth as affected by the quality of incorporated residues from white clover and ryegrass
H. Hauggaard-Nielsen, A. de Neergaard, L.S. Jensen, H. Høgh-Jensen and J. Magid **91–101**

Effect of *Burkholderia (Pseudomonas) cepacia* and soil type on the control of crown rot in wheat
Y. Huang and P.T.W. Wong **103–108**

Low-molecular-weight organic acids in rhizosphere soils of durum wheat and their effect on cadmium bioaccumulation
G. Cieśliński, K.C.J. Van Rees, A.M. Szmigielska, G.S.R. Krishnamurti and P.M. Huang **109–117**

Phytochelatins as biomarkers for heavy metal stress in maize (*Zea mays* L.) and wheat (*Triticum aestivum* L.): combined effects of copper and cadmium
W.G. Keltjens and M.L. van Beusichem **119–126**

Co does not replace Ni with respect to urease activity in zucchini (*Cucurbita pepo* convar. *giromontiina*) and soybean (*Glycine max*)
J. Gerendás, J.C. Polacco, S.K. Freyermuth and B. Sattelmacher **127–135**

Studies on the attractional effect of root exudates on hyphal growth of an arbuscular mycorrhizal fungus in a soil compartment-membrane system
H. Vierheilig, M. Alt-Hug, R. Engel-Streitwolf, P. Mäder and A. Wiemken **137–144**

Tree rooting patterns and soil water relations of healthy and damaged stands of mature oak (*Quercus robur* L. and *Quercus petraea* [Matt.] Liebl.)
F.M. Thomas and G. Hartmann **145–158**

Nitrogen mineralization by bacterial-feeding nematodes: verification and measurement
H. Ferris, R.C. Venette, H.R. van der Meulen and S.S. Lau **159–171**

Variability of traits associated with phosphorus efficiency in wild and cultivated genotypes of common bean
A.P. Araújo, M.G. Teixeira and D.L. de Almeida **173–182**

Litter production and accumulation in *Pinus patula* plantations of the Mpumalanga Province, South Africa
J.F. Dames, M.C. Scholes and C.J. Straker **183–190**

Allelopathy in black walnut (*Juglans nigra* L.) alley cropping. I. Spatio-temporal variation in soil juglone in a black walnut–corn (*Zea mays* L.) alley cropping system in the midwestern USA
S. Jose and A.R. Gillespie **191–197**

Allelopathy in black walnut (*Juglans nigra* L.) alley cropping. II. Effects of juglone on hydroponically grown corn (*Zea mays* L.) and soybean (*Glycine max* L. Merr.) growth and physiology
S. Jose and A.R. Gillespie **199–206**

Biological nitrogen fixation in grass–clover affected by animal excreta
F.P. Vinther **207–215**

Characterization of tissue tolerance to iron by molecular markers in different lines of rice
P. Wu, B. Hu, C.Y. Liao, J.M. Zhu, Y.R. Wu, D. Senadhira and A.H. Paterson **217–226**

Methane production capacities of different rice soils derived from inherent and exogenous substrates
R. Wassmann, H.U. Neue, C. Bueno, R.S. Lantin, M.C.R. Alberto, L.V. Buendia, K. Bronson, H. Papen and H. Rennenberg **227–237**

Soil strength and water content influences on corn root distribution in a sandy soil
C.A.M. Laboski, R.H. Dowdy, R.R. Allmaras and J.A. Lamb **239–247**

The variability in total and extractable soil phosphorus under a grazed pasture
E. Fisher, B. Thornton, G. Hudson and A.C. Edwards **249–255**

Iron deficiency in peach trees: effects on leaf chlorophyll and nutrient concentrations in flowers and leaves
R. Belkhodja, F. Morales, M. Sanz, A. Abadía and J. Abadía **257–268**

Alleviation of sodicity stress on rice genotypes by Phosphorus fertilization
A. Qadar **269–277**

Influence of nutrient solution pH on N_2O and N_2 emissions from a soilless culture system
D. Daum and M.K. Schenk **279–288**

Impact of elevated CO_2 on the metabolic diversity of microbial communities in N-limited grass swards
S.J. Grayston, C.D. Campbell, J.L. Lutze and R.M. Gifford **289–300**

Long-term effects of experimental nitrogen additions on foliar litter decay and humus formation in forest ecosystems
A.H. Magill and J.D. Aber **301–311**

Biomass and nutrient dynamics of Chinese fir seedlings under conventional and exponential fertilization regimes
X. Xu and V.R. Timmer **313–322**

Volume contents **323–325**

Author index **326**
